Rev. 3/16

Our high performance poly-cotton fabrics outperform the competition.

**moisture management** - Chef-tex is comprised of nano fibers that are  $^{1}$ /100th the size of a human hair and act as a shield around the main fiber to help Chef-tex dry 33% faster than the competition.

**comfort** - This 6.75 oz. fabric is smooth and luxurious as a result of a patented technology to ensure the softness is permanent and consistent, even after multiple washings.

**stain release** - The fabric handles the toughest kitchen stains. Our patented process, directly applied to the fiber, prevents spreading and re-disposition in the wash. This is not a topical additive, which typically washes off; instead, this stain release performs throughout the life of the garment.

**color retention** - These fabrics hold their color through the life cycle of the product, even in whites. Our deep dye technology resists fading from sunlight, washings and oxidation.

**shape retention** - This fabric holds its form better and longer than fabrics used in comparable products, leading to a wrinkle resistant, longer lasting jacket.

**Chef-tex Breeze** - Offers all the attributes of Chef-tex, but is 20% lighter in weight. It's the perfect choice to keep you cool when the heat is on.

#### OTHER QUALITY FABRICS

#### LUXURY COTTON

Our luxury fine line 5.5oz~(156~g) cotton fabric offers an exceptional lightweight Egyptian cotton feel for unmatched breathability, comfort, and softness against the skin.

#### **POLY-COTTON BLENDS**

These blends are durable, comfortable, and an economic solution for the Chef. With a range from 3.5-6 oz. (99-198 g) they offer high resilience and great performance.

Chef Revival was founded in 1986 by chefs, who after years of working long hours in uncomfortable uniforms, were determined to develop a line of chef apparel that performed as well as it looked. Today's Chef Revival team works closely with chefs in working foodservice operations to continually develop new products and features to help chefs look and perform their best. It's why we are now recognized around the world as the industry's leading premium brand of chef apparel. And, after more than 20 years of building a brand name that's synonymous with quality, style, comfort and value, we feel like we are just getting started.

#### BASIC EMBROIDERY TIPS

Embroidery placement is referred to as from the vantage point of someone wearing the garment.

JACKETS: For best results, please limit total characters (including spaces) to 16 or less.

WOMEN & EXTRA SMALL JACKETS: Most logos must be reduced in size and it is recommended that no more than 12 letters are used.

METRO JACKETS: No lines or logos on the right side of the chest.

BIB APRONS: Standard logo placement is top center.

FOUR-SIDED APRONS: Standard placement is top right hip or bottom left (above Chef logo).

BISTRO APRONS: Standard placement is top left hip framed across from pocket. Bottom left and right are also available.
